RAILWAYS, CANALS, ROADS, TELEGRAPHS,  
AND TELEPHONES.

---

1919.

---

## RAILWAYS AND CANALS.

There are no Railways or Canals in Gibraltar.

## ROADS.

The Roads, &c., other than Military, are vested in the Sanitary Commissioners by law, and are maintained by that Body.

## TELEGRAPHS.

Gibraltar, as adhering to the International Telegraph Convention, maintains two land wires to the Spanish frontier, which connect respectively with the special wire provided by Spain for International traffic through that country, and with a wire placing it in communication with Spain itself. The working of these lines is now undertaken by the Eastern Telegraph Company under special agreement with the Colonial Government.

The Military lines, only used for local Military and Civil purposes, are two in number—one circuit which includes the two Signal Stations: Upper and South. The other connects the Upper Signal Station with the Eastern Telegraph Company's Office in the South District.

The Eastern Telegraph Company maintains a Station in Gibraltar and communication by submarine cable with all countries.

## TELEPHONES.

There are three Telephone Installations:—

- (i.) The Dockyard Service maintained by the Admiralty and used by the Naval Establishment;
- (ii.) The Military Service maintained by the War Department and used by the Garrison;
- (iii.) "The Gibraltar Telephone Service" maintained by private enterprise and made use of by the Colonial Government and the community.

There is inter-communication through connections between the different Exchanges.
